

Group Discussion Results

1. Case presentations presented by the attendees. Group discussions should be initiated by the attendees.
2. Allow the attendees opportunities to moderate and comment while the faculty are demonstrating the procedure.
3. Encourage the attendees to submit their feedbacks on how the TTT course improves their teaching skills in their countries
4. The attendees must submit reports on the status of the EUS training in their own centres 1 year after they attended the course.
5. Assess the attendee's expectations/needs through a survey 1 week prior to the course so that we can address their needs properly.
6. Assess the attendee's level of EUS skills and knowledge during the selection process so that we can adjust the course content accordingly. The goal is to recruit attendees with similar background.
