

# **INTERVENTIONAL EUS 2015**

## **4<sup>th</sup> Mumbai Interventional EUS Course**

### **26,27 & 28 March 2015**

**Organized by**

**BIDS** | Baldota Institute of  
Digestive Sciences  
Global hospital, Mumbai

**Under the auspices of**

**AIGE** Association of  
Interventional G.I Endoscopy  
of India | Foundation

**Asian  
EUS  
Group**

**Venue : ITC Grand Central, Parel, Mumbai India**

## Invitation

Dear Colleagues,

It gives us immense pleasure to invite you for "Interventional EUS 2015: 4th Mumbai Live EUS course", to be organized on March 26-28, 2015 at Mumbai.

In a short span of 3 years, this course has established itself as one of the foremost courses in EUS in the World, and is probably the only course with strong focus on Interventional EUS. We have tried to evolve the course based upon the feedback from the attendees and the Industry.

A persistent demand was to introduce elements of basic diagnostic EUS. While the focus of the conference is Interventions, we do realize that a large segment of EUS trainees need basic training. Keeping this in mind, we have expanded the conference duration to allow a day for diagnostic EUS, without reducing the course emphasis on interventions. We have also expanded the number of hands on training sessions and their duration, in keeping with persistent requests from attendees.

Thus we have an expanded 3 day program covering all aspects of EUS. Day 1 is for diagnostic EUS and FNA, and hands on training sessions in basic radial and linear EUS and EUS-FNA. The mood turns interventional by evening itself with a live transmission from Florida Hospital, Orlando, USA by Prof Robert Hawes and Shyam Varadarajulu.

Day 2 retains its original flavor with cutting edge EUS interventions being shown live, interspersed with lectures from renowned Experts in the field. Like last year, Dr Ken Binmoeller and his team will transmit live cases in the evening from California USA.

Day 3 will have 6 hours of hands on training in interventional EUS. Training will be imparted for EUS-guided biliary drainage, pseudocyst drainage, Gastro-jejunostomy, and radiofrequency ablation. We would request your to register fast for these courses as a limited number of slots are available, both for diagnostic and therapeutic hands on courses.

We are fortunate to have some of the most renowned experts in EUS as faculty for this course . This along with the guidance provided by Asian EUS Group(AEG), has helped us carve out an ambitious program for you.

We are looking forward to have you with us. See you soon in Mumbai.

Dr. Amit Maydeo  
Course Chairman

Dr. Vinay Dhir  
Course Director

## International Faculty

Kenneth Binmoeller  
USA

Manuel Perez Miranda  
Spain

John De Witt  
USA

Guillermo De la Mora  
Mexico

Marc Giovannini  
France

Nonthalee Pausawasdi  
Thailand

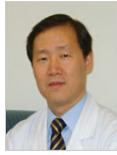

Robert Hawes  
USA

Anand Sahai  
Canada

Ida Hilmi  
Malaysia

Dong Wan Seo  
Korea

Ho Khek Yu Lawrence  
Singapore

Anthony Yuen Bin Teoh  
Hong Kong

Takao Itoi  
Japan

Shyam Varadarajulu  
USA

Mitsuhiro Kida  
Japan

Hsiu Po Wang  
Taiwan

## Program Highlights

**Live demonstration from Florida Hospital, Orlando, USA By Prof. Rob Hawes & S. Varadarajulu**

**Live demonstration from California Pacific Medical Centre, San Francisco USA by Prof K. Binmoeller**

4 hours of Hands on training for basic radial and linear EUS, EUS FNA.

8 hours of Hands on training on biliary interventions, RFA, Gastro-Jejunostomy and pseudocyst drainage on the **3D MUMBAI EUS MODEL**

Lecture on “Future of diagnostic EUS” by Prof Rob Hawes

Lecture on “Future of therapeutic EUS” by Prof M Giovannini

Lecture on “Therapeutic vascular interventions” by Prof K.Binmoeller

## Live demonstration of Interventional EUS procedures

- EUS-FNA and biopsy
- Fiducial placement
- Variceal coil placement for gastric varices
- Pancreatic cyst ablation
- Radiofrequency ablation
- Plastic stents for pseudocyst drainage
- Metal stents for pseudocyst drainage
- Pancreatic necrosectomy
- Biliary and pancreatic rendezvous procedure
- Pancreaticogastrostomy
- Choledochooduodenostomy
- Antegrade biliary drainage
- Hepatico-gastrostomy
- Gallbladder drainage
- EUS-guided gastro-jejunostomy

## Program Schedule

TIME	PROGRAM
<b>26th March</b>	
<b>10.00-10.05</b>	Introductory remarks <b>Amit Maydeo</b>
<b>10.05-10.10</b>	Remarks by AEG Chairman <b>Ho Khek Yu Lawrence</b>
<b>10.10-10.15</b>	Course objectives and faculty introduction <b>Vinay Dhir</b>
<b>10.15-10.30</b>	Technique of Luminal Radial EUS( Mediastinum and rectum) <b>Vikram Bhatia</b>
<b>10.30-10.45</b>	Technique of Pancreatico-biliary Radial EUS <b>S.Lakhtakia</b>
<b>10.45-11.00</b>	Technique of Pancreatico-biliary Linear EUS <b>Amol Bapaye</b>
<b>11.00-12.00</b>	<b>LIVE SESSION I</b> EUS. Radial, Linear, FNA mediastinum, FNA Pancreas, Core biopsy, EBUS
<b>12.00-12.15</b>	EUS-guided tissue acquisition: When, how, how much? <b>P.Garg</b>

## Program Schedule Contd.

### TIME                    PROGRAM

#### 26th March

<b>12.15-12.30</b>	EUS Training in Asia : A practical approach <b>Ho Khek Yu Lawrence</b>
<b>12.30-01.30</b>	<b>LIVE SESSION II</b> FNA, Core biopsy
<b>01.30-02.15</b>	<b>Lunch</b>
<b>02.15-02.30</b>	Contrast EUS, Elastography: Current evidence <b>Rajesh Puri</b>
<b>02.30-02.45</b>	EUS Approach to sub-epithelial lesions <b>Surinder Rana</b>
<b>02.45-03.00</b>	EUS Approach to pancreatic cysts and IPMN <b>N.Pausawasdi</b>
<b>03.00-06.00</b>	Hands on training session I (Diagnostic EUS)
<b>07.00-08.00</b>	<b>Live transmission from Florida Hospital, USA</b> <b>Lecture : Future of diagnostic EUS : Rob Hawes</b> <b>Live : Rob Hawes, S. Varadarajulu</b>

## Program Schedule Contd.

### TIME                    PROGRAM

#### 27th March

<b>09.15-09.30</b>	Celiac block and neurolysis: Not so harmless? <b>Anand Sahai</b>
<b>09.30-09.45</b>	EUS anatomy of portal vascular system <b>Malay Sharma</b>
<b>09.45-11.00</b>	<b>LIVE SESSION III</b> Celiac block, Coil for gastric varices
<b>11.00-11.15</b>	Cyst ablation therapy: Indications, technique, outcome <b>J.Dewitt</b>
<b>11.30-11.45</b>	RFA and FNI for pancreatic lesions: Current evidence <b>Dong Wan Seo</b>
<b>11.45-13.00</b>	Live cases IV: Cyst ablation, RFA, Pseudocyst plastic stent, Pseudocyst metal stent
<b>13.00-13.30</b>	<b>Lunch</b>
<b>13.30-13.45</b>	Fiducial placement: Current evidence <b>Ida Hilmi</b>
<b>13.45:14.00</b>	Plastic or Metal stents for PFC ? <b>Anthony Teoh</b>
<b>14.00-15.30</b>	<b>Live cases V</b> Biliary RV, CDS, AG, HGS

## Program Schedule Contd.

TIME	PROGRAM
<b>27th March</b>	
<b>15.30-15.45</b>	Endoscopic necrosectomy: Standard of care? <b>Guillermo De la Mora</b>
<b>15.45-16.00</b>	EUS-RV <b>V.Dhir</b>
<b>16.00-17.00</b>	<b>LIVE SESSION VI</b> Pancreatic RV, Pancreatico-gastrostomy
<b>17.00-17.15</b>	EUS-BD: Need for standardization? <b>M.Giovannini</b>
<b>17.15-17.30</b>	Complications of EUS-BD and their management <b>MP Miranda</b>
<b>17.30-17.45</b>	Gallbladder drainage: Ready for prime time? <b>Takao Itoi</b>
<b>17.45-18.00</b>	Pancreatic duct interventions: Problems and pitfalls <b>M.Kida</b>
<b>18.00-19.00</b>	<b>LIVE SESSION VII</b> GJ, Gallbladder drainage
<b>08.00-09.00</b>	<b>Live Transmission from San Francisco USA</b> <b>Lecture: Vascular EUS therapy K.Binmoeller</b> <b>Live cases</b>

## Program Schedule

TIME	PROGRAM
------	---------

### **28th March**

<b>09.30-09.45</b>	EUS guided Gastrojejunostomy <b>Takao Itoi</b>
<b>09.45-10.00</b>	Future of therapeutic EUS <b>M.Giovannini</b>
<b>10.10-11.00</b>	<b>Live cases VIII</b>
<b>11.00-13.30</b>	<b>Hands on training session II</b>
<b>13.30-14.30</b>	<b>Lunch</b>
<b>14.30-17.30</b>	<b>Hands on training session III</b>
